IMPORTANT MESSAGE

Most of my success was with crossing the Raven Van Loon to the Heremans and Dirk Van Den Bulck or any other breed because the Ravens are a very tough breed and will fly and win up to 600 miles. Flyers that have had success at 600 miles, Terry Conlon Newcastle and a few others who have been lucky enough to have the Ravens.

As far as I am concerned you have to have the Ravens in the cross to have any success in the One Loft races. I have been in pigeons all my life and I am now 83! The Ravens would be the best cross that I have come across.

They are very reliable & you can count on them. *When the going gets tough they come into their own.*

I have been racing Barry's pigeons this season with great success. They have been clocked or in the first home every week gaining prizes in Oatley RSL Pigeon Club (20 members) and winning CCF Fed 2 bird from Crowdy Head and 2nd from Kempsey. These pigeons would be a great addition to any loft.

Barry Malone

TESTIMONIAL.

I have limited exposure to some of the birds from Barry Devine, but the birds that I have raced from him have proven successful. In 2016 I introduced a pair of HC's from Barry to bolster my birds performance. This pair was off an inbred cock to "Olympiad" crossed with a grand- daughter of "Euro". They proved successful in breeding pigeons to gain significant Fed prizes and their descendants have continued a winning performance in the past 4 years. In 2020 four of my 6 Fed winners contained this blood and this year I have had multiple drops of these birds out of the leading batches to keep me positioned at the pointy end of the Fed Results.

Barry has also bred 5 squeakers for me to race these past 3 years. They have proved to be consistent performers. In 2020 I raced a pair with the cock off the pair being in a drop nine birds that would have all topped the fed from Milton, 120 km. The following week the nest mate hen topped the Fed from the same race point. In 2021 the same cock was 3rd, 5th Fed from Milton again.

The hen was put to stock where she has bred some very handy pigeons these past two years including a Fed winner. In 2021 a pair of nest mate hens showed some potential before COVID intervened and this year in 2022 they are again within 30 seconds of my clock pigeons after several starts each. Their potential should be realized as the distances increase. In a handful of starts these birds from Barry have indicated to me that they are the goods and I look forward to them racing well and producing winners!

Stephen Saywell SCF

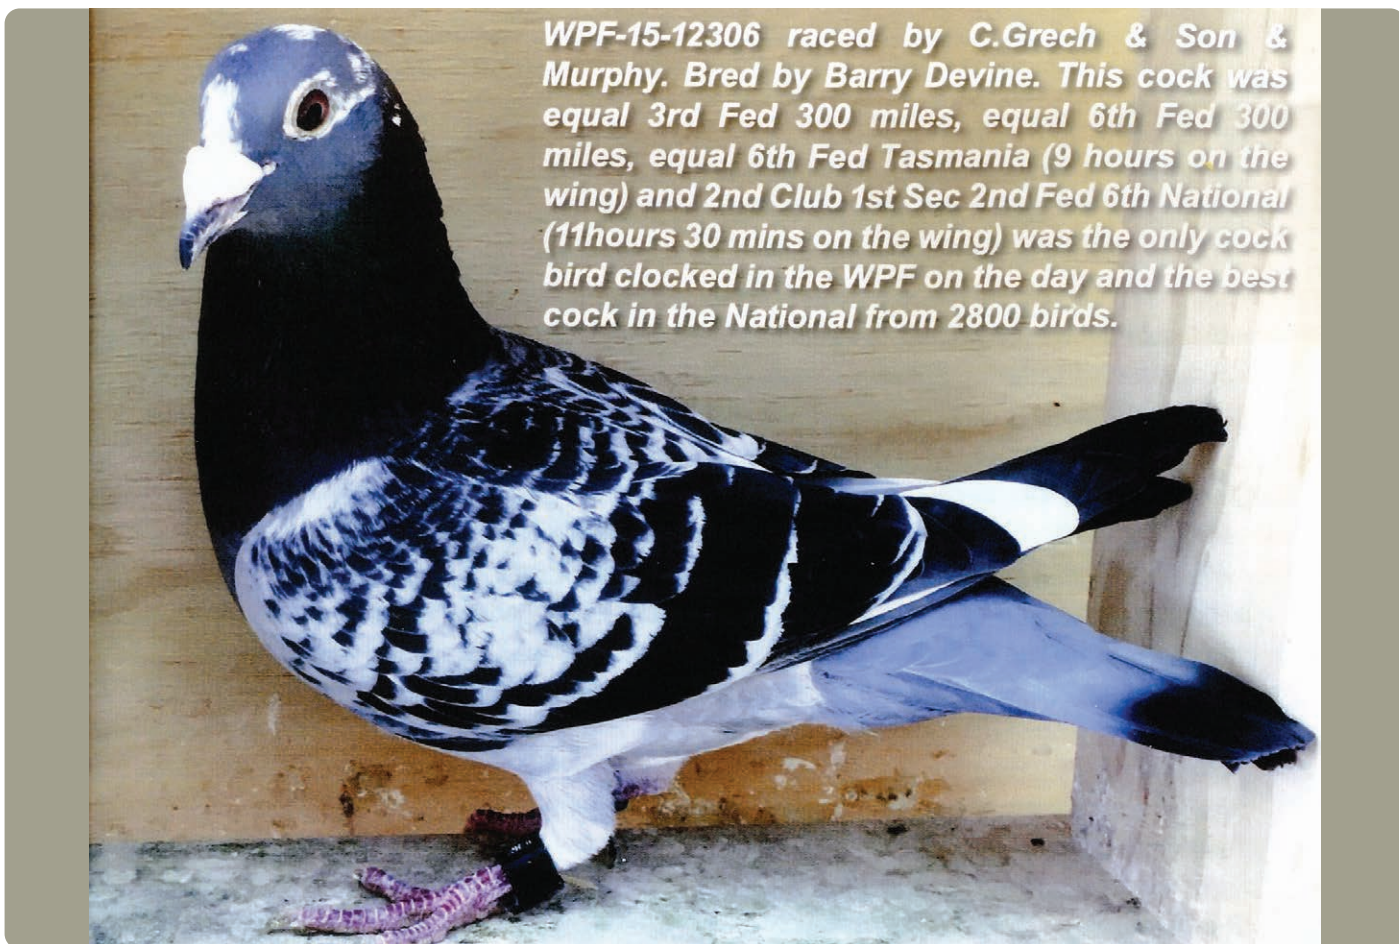

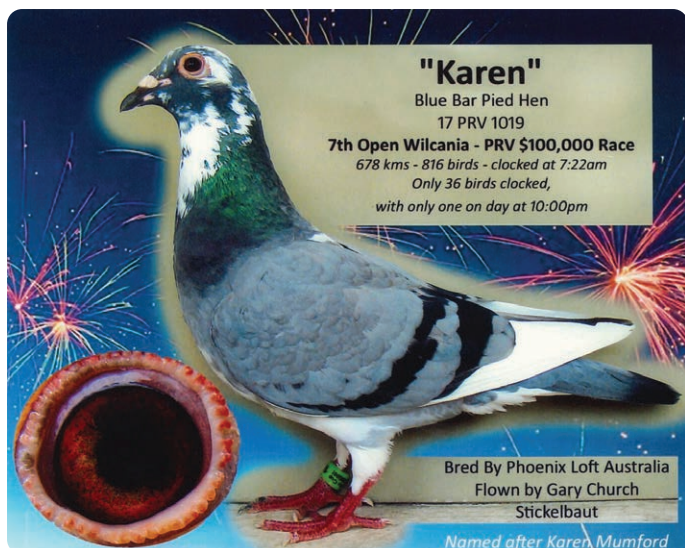

I was fortunate to purchase a Raven Van Loon hen at Barry's 2020 Melbourne sale and in her first season in the stock loft, she made an immediate impact. I sent one of her daughters to our first club race of the year, from Griffiths 220km, which she won, and then two weeks later she arrived with my clock bird from Rankin Springs 270km for =3rd club. Flying with the Northern Districts Invitation Combine (NDIC), our second fed race of the year was from Hillston 330km (200 miles). It was a day with a fair amount of easterly in the wind which put me very much out of position and so my expectations for this race were low. I sent a son of Barry's hen to the race and he arrived with my clock bird which was placed 1st Club by a margin of 19 minutes and 2nd Fed, needing just 22 seconds to take the victory. Given it was a day where I had no business being anywhere near the top of the result, this was a performance I rated quite highly.

A few weeks after this he was injured on a toss which saw him on the sidelines for the remainder of the season. During training for the 2021 season, I had a couple of tosses where this same pigeon was home a good half an hour in front of the rest of the team and he seemed to be making a habit of it. Because of this he became known as "The Rocket Man". The first club race of the 2021 season was from Griffiths 220km and the Rocket Man took the victory by a margin of one and a half hours.

The first fed race of 2021 was from Hillston 200 miles and given the Rocket Man's previous performances, my expectations were high, but unfortunately it was not to be, with the Rocket Man not making it home. I guess when a pigeon is out front on its own consistently, it can be a target for birds of prey.

Later in the season I received a phone call from Barry, to let me know that he had won the Meadows One Loft Race in Melbourne. As it turns out, the mother of Barry's winner was a full sister of the hen that I had purchased. Given the performances they have produced for myself in the short time I have had this bloodline and the performances they have produced for Barry, there is no doubt in my mind that these are a high performance bloodline.
